WE'LL TAKE CARE OF YOUR EXISTING FURNITURE.

Let BOS save you stress and money by handling the decommissioning process.

With a vast network of brokers, nationwide showrooms, and our new 150,000 square foot, climate-controlled warehouse in Roselle, IL, we can prevent most decommissioned furniture from going into a landfill.

We will determine the furniture you currently have, where it's located, and if you can reuse it or need to remove it. Then we will recycle, donate, and/or dispose of all your excess furniture so that your space can be returned to its original state.
