WORKSPACE DISCOVERY

Combining Team Preferences & Powerful Data Intelligence

Workspace Discovery by BOS is a cutting-edge, proprietary technology that helps you arrive at design decisions faster and more effectively.

Leveraging simple surveys and powerful reporting to crowdsource your team's preferences, Workspace Discovery provides workspace solutions based on data relevant to your people, industry and needs.

FEATURES

- Crowdsourced design preferences.
- Powerful square footage & headcount calculators.
- Relevant workplace application recommendations including culture types, hybrid models and collaboration styles.

BENEFITS

- Design & discovery phases reduced by weeks, even months.
- Involve the entire organization in decision-making with zero added cost, time or resource.
- Faster, more informed decisions from the very first meeting, resulting in a finished space that exceeds expectations for both real estate and people investments.
